Frequently Asked Questions

> Where do I use the filling powder for?

Use the filling powder in combination with the glue to fill cracks or space between materials and bond them together.

When working with plastics use the filling powder. For example, use the filling powder for:

- Car bumper mounting points
- Hard plastic car door handle
- B-style car cover
- Filling and re-drilling
- Refit a screw
- Radiators
- Appliances
- Rear view mirrors
- Tappet covers
- Grills
- Hand tools
- Fairings
- Bumpers
